

INTERNET OF THINGS SOLUTIONS WORLD CONGRESS 2018

ABB Innovation Corner

The power of digitalization starts here

ABB stand D421 at IoT Solutions World Congress 2018 will be transformed into an innovation area with its own dialogue space called 'ABB Innovation Corner'.

During the three days of the congress, visitors will be able to learn in detail the most innovative initiatives and recent success stories carried out in the company in digital issues, through 30-minute sessions. This space will have not only the participation of national and international ABB experts; but with the attendance of ABB partner companies such as Microsoft, HPE, Huawei and Mesh Systems.
